## 2018 Ministry Highlights

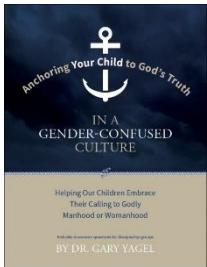

Audio Version of *Got Your Back* now available at Christian Audio.com and Amazon Audible  
Produced a series video's available at [gotyourback.info](http://gotyourback.info) that tell the story of what MEN are saying and what LEADERS are saying about the impact this book on men's lives

Louis Sutherland, a high-ranking officer in the Belizian Army, who is a Christian but was struggling with alcohol abuse went to Jacob's farm, since it is a drug rehab center. He discovered *Got Your Back*, staying up all night reading it. He contacted me about getting his church men & the believers in the army using it. I mentored him through WhatsApp and he is now leading men in his church and army to go through GYB. See picture →

Led well-attended & well-received seminar at my denominational meeting, (General Assembly). ***Answer to Toxic Masculinity: Raising Boys Who Pursue Godly Manhood.*** Recent stories of influential men using their power to sexually abuse women reinforce the message of those in our culture seeking to deconstruct male/female differences altogether: *All masculinity is toxic.* Today's church has an unprecedented opportunity to step into this cultural malaise and point to manhood, the way God designed it to be. But are we teaching our sons what redeemed masculinity looks like?

The Committee for Discipleship Ministries of the Presbyterian Church in America published this short book, giving it instant credibility (since I am not a big shot in Christian circles.) It is designed to equip Christian adults to understand the culture that is shaping their children's views of sexuality, so they can help their children respond to the deconstruction of male/female gender identities and roles taking place in our culture with gospel grace towards the sexually broken and with a wholehearted celebration of the biblical teaching of complementarianism.

### MISSION 2019: Our Objectives for the Upcoming Year

**A. Bread and Butter:** Continue with the core of our ministry: speaking at men's events, training men's ministry leaders, and getting men connected to each other.

**B. Promote *Anchoring Your Child to God's Truth in a Gender-Confused Culture* outside the PCA.** Our plan is to promote the book in denominations that are a part of the Council for Biblical Manhood and Womanhood, with men's ministry leaders I know, with homeschool and classical Christian education groups. As God provides the funds, our intention is to advertise the book a few times in World Magazine.

**C. Continue to promote *Got Your Back*.** This past fall, we invested in some carefully thought out Facebook advertising to experiment. We are still evaluating this. We may also advertise GYB in World Magazine or World Digital. One of our board members, John Baker, is committed to investing some of his time reaching PCA elders about GYB through the Internet and link to the GYB website [gotyourback.info](http://gotyourback.info).

**D. Screen Cast Project.** Our present plan is to develop a series of Screen Cast videos to make available to churches to use with their men at the local level. I will be focused on tweaking this material this year.

- **Becoming a Band of Brothers:** Build men who are winning their spiritual battles because they no longer fight them alone
- **Real Men Real Relationships:** Build men who are succeeding in their most important relationships
- **Recovering the Call to Biblical Manhood:** Build men committed to living out God's design for manhood
- **Focused and Effective for the Master:** Build men who are motivated and equipped to shape their lives according to Christ's mission for them.
- **Sexual Discipleship 201:** Build men and young men who are equipped with grace-centered, biblical principles for their life-long battle with lust.
